

ARCHES Collaborative Diagnostic Tool (ACDT)

ARCHES Collaborative Diagnostic Tool

- **Measures** a program/initiative's progress designing, implementing, adopting and sustaining collaborative practices across a network of intersegmental and multi-sector partners.
- **Collects** information used to monitor leadership development that occurs within a collaborative.

ARCHES Collaborative Diagnostic Tool

- **The data** compiled in this survey is used by ARCHES to:
 1. Clarify essential collaboration drivers that support continuous learning
 2. Inform the scope and scale of technical assistance within an ICB effort.

ARCHES Collaborative Diagnostic Tool

- **The data** compiled in this survey helps a collaborative measure and monitor:
 1. Its state of development implementing, adopting and sustaining new systems that support the network.
 2. Professional learning that occurs within partners organizations.
