College and Career Success Network

We support intersegmental, multi-sector regional collaboratives to eliminate the resource and opportunity gaps among student groups, accelerate student success, and facilitate college and career readiness.

Milestones and Questions

Milestone 1
Explain resource and opportunity gaps among student groups

- How does student performance vary within the data?
- Are there positive outliers presented in the data? Particularly, in areas the collaborative struggles?
- What opportunity gaps exist within the data?
- What factors contribute to the trends presented in the data?

Milestone 2
Identify data trends in student preparation, persistence and college/career readiness

- What preparation or institutional barriers contribute to items listed in Milestone 1?
- Of the items listed in Milestone 1, which are priorities to address?
  - Why are these priorities?
  - Why should these priorities be addressed by the collaborative?

Milestone 3
Develop next steps for further exploration, clarification, research and discussion within your collaborative

- Within the collaborative, what existing practices, initiatives and resources could be leveraged to address the priorities listed in Milestone 2?
  - How do we modify existing practices, initiatives, and resources?
- To address the priorities listed in Milestone 2, what new practices, initiatives, and resources need to be established within the collaborative? Why?
  - How will new resources be identified for items that are currently unaddressed.
  - What initial steps can be taken to identify and leverage resources or activities for new practices?

Milestone 4
Identify how ARCHES can support you

- In what ways can ARCHES support you in the areas of: diagnostic development, skill development, and system development?
